

Inventions

Find three inventions that ease our lives and explain their benefit (for example: car to allow us to move quickly, over long distance without effort)

Find three inventions that allow us to understand the world better (for example: the microscope to see and then analyse very small things present in blood)

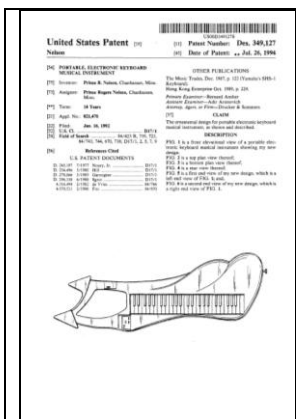

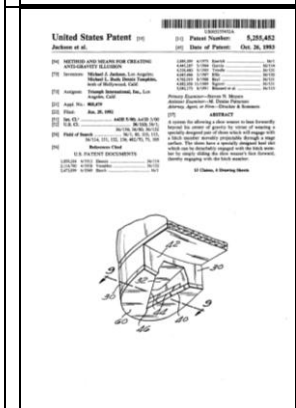

Find three inventions that allow us to have fun (for example: the television to watch movies)

Find three inventions that save lives (for example: the fire extinguisher to stop a fire when it has just started)

Patents

You have to find information on the patents:

	<ul style="list-style-type: none"> The patent number The date of patent The term of the patent The name of the inventor The claim
	<ul style="list-style-type: none"> The patent number The date of patent The name of the inventors The description of the invention

United States Patent (s) (i) 265,754
 Lane, Jr., et al. (s) ** Aug. 30, 1982

OTHER PUBLICATIONS
 U.S. Patent 2,657,754 (S) Aug. 30, 1982
 U.S. Patent 2,657,754 (S) Aug. 30, 1982

FIELD OF INVENTION
 This invention relates to a toy figure, particularly a Yoda figure.

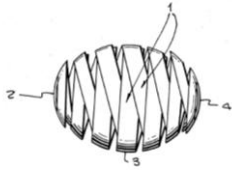

The patent number
 The date of patent
 The term of the patent
 The name of the inventor
 The claim

United States Patent (s) (i) 4,219,999
 Fletcher (s) Sep. 3, 1980

U.S. PATENT DOCUMENTS
 U.S. Pat. 4,219,999 (S) Sep. 3, 1980

FIELD OF INVENTION
 This invention relates to a helix structure, particularly a helix structure for a toy figure.

The patent number
 The date of patent
 The name of the inventor
 The claim
 The thickness of the helix patented

Submit invention

Choose an invention on the document “ridiculous inventions” and be prepared to defend your product and to convince your auditory that your product is a very good one.

Use Power Point to create a slide show (6 slides max.). In this slide show, you have to describe your product and give information about the target market. Estimate the price of your product. Describe how you would make it on a large scale.

You've got to create a document (A4 paper) to explain why your product is a very good one. How much it would cost.
