Desidered Employment and Current Skills

System Administrator, DBA, Programmer, Consultant

Over the years, thanks to my thirst for knowledge, I have gained extensive experience in computer science ranging from operating systems to programming languages and platforms upon which the latter are based. Along this path I have continued to improve my approach to problems always trying to implement optimal, generalized and reusable solutions (OOP, Design Patterns). In some academic work opportunities I've been able to demonstrate excellent teamwork skills and capability to collaborate with external groups. Another virtue I possess is the ability to solve almost any computer problem thanks to the excellent information gathering skills and the many years of experience in the computer science field.
