

## Biometrics: Facial Recognition

Watch the video:

<https://www.youtube.com/watch?v=f5qgOqNQ7zY&feature=youtu.be>

### Answer the following questions:

1. How are face prints created?
2. Why is there a good chance our faces are recorded every day? What could happen as a result?
3. What are the ways law enforcement and airport security are using facial recognition?
4. How is facial recognition technology being used in China?
5. How do tech companies like Facebook and Google use facial recognition?
6. Where would you draw the line when it comes to facial recognition? Private companies (like Snapchat or Walmart)? Everyone? No one? Explain your answer.
